Lost wading staff Penns Creek

This past Sunday night June 2, after fishing Penns Creek in the Trophy stretch, I accidentally left my wading staff behind in the parking lot at the end of Tunnel Rd below Coburn. We were parked near the footbridge (but not blocking the lane). It is an oak staff that I've had for 20 years and I regret its loss. My 2013 Fishing License was attached to the staff's lanyard, so ownership of the staff is without question. If anyone knows of its whereabouts, I would greatly appreciate your help. You can PM me if you like and I'll give you my phone # so we can plan a re-unification. Thanks in advance.
