The brown drakes are over now, although you still may find some cahills and caddis. I went back to the shenango two nights ago and even though the caddis were hatching I couldn't get any on top. Missed one though. Got 2 trout and bass on streamers. Went back yesterday during the day and didn't get any trout, but they also opened up a gate.

And nice! It's rewarding when you catch a fish on something you tied yourself.
Don't forget about woolly buggers, and green weenies!
