Flies - in my Richardson Chest box

Leaders - leader wallet in the chest box

floatant - in floatant holder of chest box

nippers - on zinger attached to strap to chest box

forceps - snipped to strap of chest box

Tippet, shot, car keys, phone - in zippered pouch on chest of waders.

The end. That's pretty much all I carry. On the all day trips where I will not be near the car, I do have a camo fanny, which will hold the lunch and 2 drinks. On these trips, the stuff in the zippered pouch usually gets transferred as well.
