Keith: You already did when you say "I like the rod."

When you compare two good/greats against each other - it is a matter of opinions only. You were actually trying to compare same grit sandpaper to same grit of another manufacturer's sandpaper.

Also in your original post, you did not mention wt. If you were comparing a 6wt to a 3wt for trout on a large river, or to throw out a large fly/nymph - then you would have been comparing suede to sandpaper.

What Wt did you get?
