Just thought id give a review. About a month ago I ordered a bunch of flies from this online shop. Everything was fine from the start. I was informed some were back ordered kool no problem.

When I received what flies they did send some were missing that they were supposedly sent. So here I am missing a bunch of flies and some back ordered.the place is extremely unorganized. They just stuffed all the flies in a cup and sent them out no rhyme or reason.

All in all the quality is ok for .39c but if you need anything quick good luck this is not the place. And if you do order make sure you check your flies.
