Just got back from the Pine and Allegheny. Did well on both Sunday and Monday, then the clouds lifted, the sun shone, and the trout took cover. Did well enough close to dark when the fish started moving again. We didn't run into much hatching action. Some sulphurs on the Pine and a goofy #10 something with greenish wings and a white abdomen on the Allegheny. Caddis, of course---most fish caught on a hare's ear soft hackle. All in all, though, it has been a good season so far!
