Kens Copper Head. Lost a monster (22+) on one this evening. It is not an articulated, but the Lehigh trout seem to love this pattern. If I am tossing articulated, I am using muppet babies.

They might think it looks like a golden stone...maybe. Black always works because of the hellgrammites, and all sizes of grey and brown marabou streamers work well, not really much more than lashing a gob of marabou to a streamer hook. Pulse the marabou at the head of pools.
