You can still spend \$300 on a click drag reel....

Heck, that's ghetto. Check [this](#) out.

I once rebuilt a Hardy LRH for Al Miller that he bought in the 60's. New line guard, springs and pawls. Cost me \$10 in parts, and it worked like new.

I've got a \$200 1494 in my reel cabinet - all One P-Footed out. It was made in 1959, and new in the box - tag still on it. Proof that you can't polish a turd. 😊
