not a lake fisherman. so rivers, creeks, brooks, runs ect.....hopefully we can fly fish for trout, but it's certainly isn't a deal breaker. we are coming from Burbank/Hollywood area, so we are traveling no matter where we go. We don't mind, we are used to it.

I'm not going to lose any sleep over losing flies or flotant. Heck we could go shopping for stuff in LA. But the rod and reel are coming with me and I like the idea of taking my 4 piece rod/reel combo, it's a 7footer so I'm not looking for 24 inch trout....although my bro will be.
