At this year's Newbie Jam, I met a few members who owned the PA State Game Lands app so I pass this information along. I will be updating both iOS and Android versions of this PGC app over the weekend with 2013-2014 season data.

This year, WMU 2G has been split creating a new WMU 2H. In the app, you'll find WMU boundaries included on the map. For those of you with iPhone/iPad versions, you will need to "Clear Map Cache" to view the WMU maps.

Android will clear the map cache automatically when you first launch the app after the update installs automatically.
