Anyone ever fish Sedge Island?

I've hit the back side of IBSP and Myers Hole behind LBI many times. It's a fantastic area to kayak and is pretty wade friendly in many spots. The fishing has been a mixed bag for me. Generally, I like it better in springtime than fall. The flies can be really bad this time of year. If you want to get a weakfish on the fly this area is a good bet.

It's much like the surf - timing is everything.
