Bass -> I am taking the baitcaster as well as a spinning rod. Along with an 8 and 6 weight. Gonna be fun since I've more or less exclusively used a fly rod for fishing the last 3 years. Got a stash of Zara Spooks, rapalas, spinnerbaits, and a ton of plastics (worms, tubes, jerkbaits, etc).

Fish -> from what I understand the zebra mussels have completely changed the river. Ive been told the water is crystal clear, and like you said, yhe fish have moved deeper. Also heard the fish key in on gobies. I'm still hoping to find some bass and smaller pike in the bays. Gonna make a side trip with my uncle to Lake Oneida for a day as well.
