Hello Everyone,

We had a great Trout Power Weekend. We had 30 teams of 2 and I think everyone caught fish. My partner and I caught 10 in total and my biggest was a 13.5 brown. His was a 9.0 brown. We didn't place, but had a great time and collected some awesome information. One team caught the same 20.5" fish twice. One guy caught it on an elk hair caddis and an hour later his partner caught it on a nymph. Just goes to show you that if you miss a big pig or it falls off they can still be caught. Check out the website at www.troutpower.com or the trout power face book page for some photos of some nice big fish. I hope we can get a couple teams from PA Fly Fish next year up here for the event.

Thanks,
