I know I would love to be fly fishing pine creek but im going in july and the only fly rod I have is a 6'6" 3wt which I don't think is the best bet on pine creek of course im bringing it anyway but for brook trout hopefully. im only staying a couple days and I don't wanna have to buy a whole new set up for a couple days but I do have numerous spinning gear and im wondering what I could use with that because I wanna catch some of those big pine creek trout
