Anyone have a Scott G2 or G in 4wt. or 5wt. that they are interested in selling. I am looking at these models in particular:

844

884

845

885

I am new to fly fishing and have casted the 884...just cannot bring myself to the cost of a new one yet...so used is my only option. I have checked on "that auction site" but would rather buy from a person who has used the rod rather than someone who might have just got it from an estate sale. If you have one and are interested in selling, please message me. Thanks!
