It's just an educated guess, but I'm thinking that fish in his avatar was from a mountain stream and probably landed in 10 seconds or something. If it is exhausted, it's from examining closely and taking many pictures, which I will excuse him from, since it's a freakin tiger!!!! If I caught a wild tiger, yeah, I think I'd go all out on the gawking and picture side of things. Don't worry, it wasn't going to reproduce anyway!
