Great little boxes. I have 3 of them. 2 nice small ones and a large one. When I got them they were all full of flies. Thank you Doc Eshelman. They were his dad's and all the flies in them were tied by his dad. And I know that bit of info may not mean much or anything to anybody but me but, Doc has helped and taught me a lot about fishing over the years. We're both Lititz boys and he has handed me stuff that he probably will never use again. He fishes big stuff. Atlantic run/Pacific run spey stuff on both coasts. Gaspé River up in Ontario and Washington state. Gotten off track there a bit, sorry. They are great boxes.
