Well, I have fished some really nice sections before on Clark's. I have fished it regularly got the last 7 yrs or so....but the sections I fished on Saturday (one section was downstream from App Trail) were featureless, slow, boring, and frankly sucked. I have had 20+ fish days here (bait) but these slow sections just sucked. Too many other good streams to mess with it. I'm sure ill check it out at least once this summer but for now...nope.
