Hey guys, my name is Alex and my wife Liz and I both fly fish for everything from native brookies to tuna. We just can't get enough!

We are from Rhode Island but I did live in Delaware Water Gap for a short time, unfortunately I didn't get to fish while I was there.

This weekend we need to be in Stroudsburg for a funeral and plan on fishing Saturday afternoon and all day Sunday. We will bring our trout rods but what we are really hoping to get in to are some smallmouth! We are going in to it completely blind with the exception of whatever I can research over the next two days. Hopefully we can turn it in to a successful trip.

If you guys have any questions about me or my fishing please don't hesitate to ask, I am one of the nice people from RI haha.

Alex
