Thanks Jack!

Basically anything that is wadable, I am willing to fish. We will have rods from 2wt to 8wt with us to cover brook trout to pike. Neither of us have targeted smallmouth with the long rods yet so that is what we would really like to get in to.

Top water is king but I don't mind fishing subsurface if that is what I need to do to get the bite. I am spinning the heck out of some deer hair over the next couple days to try to fill the boxes up with some poppers and sliders. I also have some foam poppers and will tie some wooly buggers and maybe some small streamers. My only limit to fishing subsurface will be that we only have floating lines for the lighter weight rods. If this wasn't such short notice, I would be a little more prepared.

I was looking through some of the rest of the forum, you guys have a great community here! Lot's of pictures too, I like that 📷

Alex

Edit*

I almost forgot! The fishing is great up here!
