The guys that won were brothers that lived about an an hour away. Their fish was 21.5". It was on troutpowers facebook cover on monday. It still might be up.

I fished the no-kill friday and saturday morning. I saw a nice hatch of march browns and caddis on friday but for the most part the fish didn't work them. I did manage to hook a very nice fish friday but it broke my leader. Saturday I caught the only trout I saw rise on a march brown. I could only fish saturday really early in the morning.
