Walked to the headwaters of the main branch yesterday. Its right behind my house actually. Super thick and swampy woods. It's maybe 3 feet wide up there by huffs church.

No trout to speak of but the chubs were hittin the surface ha. Caught more than a few in the 2 to 3 inch range. Got to practice the bow and arrow cast with the yellow eagle claw though :)

Gonna explore a little more today if the weather holds off.
