Lots of great comments...

I fished the stream above the drained reservoir a few years back. Only caught one Brookie, but it was BIG...

I've fished Long Pine Reservoir a few times over the years with the fly rod. Caught some Perch and small bass, but it was tough.

Osprey: I fish the Cumberland County side more often as well, because I live in Camp Hill. Toms Run and the headwaters of Mountain Creek are both great wild Brook and Brown Trout streams. Lots of great wild trout water as you head towards Caledonia and beyond. Headwaters of Antietam above the Waynesboro reservoir, is a nice stream too.
