I vacationed there with my wife about 6-7 years ago. We went on a 14 day tour of germany, austria, and switzerland. This was in sept, and we spent about 6 days in switzerland. Very beautiful country for sure. I didn't check out anything about the fishing. Most of the streams I saw looked like milk from glacier melt. And given the late time of year I was there, I'm guessing they're probably like that most of the time
