So, I am really happy with my first shot at an "all around", in my Greys 5 wt. 9' Streamflex

In July, I'm headed out west and don't want to go with one rod, and have been told that I will likely need a 6wt. I have been watching classifieds for a (4) piece 6wt and have not seen anything to my liking. I'd love to hear some recommendations that might compete with my current plan, to order another Greys, in a 6wt, maybe 9'6"?

Thanks,  
Scott
