Old Lefty and I fish quite a bit together. Believe me, Dave can cast much further than 60 feet and do it with the utmost accuracy. Once on Big Pine I saw him hook and land a trout that was feeding on the surface about 90 to 95 feet away. Not only was the cast accurate but I could not believe he got a good drift and hook set at that distance. Dave I know you don't want me to say it but YOU ARE THE MAN my friend.
