To give everyone as much info as possible and in case you cannot get there at 10, we have decided that we will go from 10 to 1. So if you can't get there early you'll know how long we will be there and hopefully you can spend some time with us. You are not expected to stay with us the entire time either. We encourage you to get some pointers on questions you have and then wander off to the stream to practice.
