Good information,

I will be headed to Levelock AK in August to visit my daughter. She lives on the Kvichak river. She is a teacher in the village of 65. There are 18 total students from K-18. I will be taking my 4 piece 8 weight. Leave from State College, Detroit, Seattle, Anchorage and a bush plane to her village. My concern is lost or missing luggage. Her village is so remote, there is no way the luggage would make it during our visit. If anyone has made a recent trip to AK, post your experience. I want to be able to carry on my fishing supplies.

Thank you
