Water reading is my personal big one, and actually spotting fish. Will also have my dslr on hand for some photo documentation. Also it looks like firstcap and I will be meeting up to play around with some double hand casting (switch/spey as well) though it will probably end up on bigger water afterwards, if any one cares to join as well.

Oh and on my to do list would be some nymphing technique, probably my weakest suit.

Thanks again to those who set this up!!!
