Purdy nice, you see any whitetail deer? The deer herd in Maine is lower in Maine recently, and was just wondering what you saw. Nice dog. Lotsa moose you say, no wolves around, at least not greys, think the few that cross the border there are eastern wolves.

I saw about 5 deer during the trip. The ones I usually see are huge. No wolves. Didn't see any bears. One of the recent trips
one walked about 30 feet pass where i was standing.
