Great report, thanks for sharing.

the last salmon there is a real nice salmon. a shame about the high water.

i've always wanted to fish the Roach and East Outlet this time of year and catch salmon and brookies on the top on big Stimmies.

I won't make it up this year, unless i can squeeze a mid september trip in.

thats some drive from PA btw - 10/11 hours ?

Thanks. Yes, the drive is about 10-11 hours. We usually stop overnight or two days at Portsmouth, NH. I then do some fly fishing for Stripers off the coast of southern Maine. Usually make the Maine trip twice a year.
