For the evening? Sulphurs

You are going for the day be prepared with olives, sulphurs, craneflies, paraleps, tan caddis, green and yellow sallies, possible tricos in the early morning. I cant confirm that because I tend to fish it in the evening when hatches are on a timer.

Nymphs? I have not messed with nymphing the Po since winter. However, pt's, princes, caddis larva, san juans, zebra midges are your best best.
