Seems like the most popular "brush'-up" request is for nymphing. Well between H-A and SBecker, you may have 2 of our best nymph guys out there. I think we have that covered well. I also saw mending, reading water and bugs on people's lists and I think we can cover those too.

Look forward to seeing everyone. I haven't seen anything about fly tying so as of now I'm not planning on bringing any of that stuff.
