If you are from the SE and looking for colder water temps or venturing to Cabela's and looking for the same after your shopping trip, the Schuylkill River in the fingerling stocked section stays cool to cold from Schuylkill Haven upstream to Middleport. It is an opportunity to fish a recovering fishery that is stocked with fingerling trout and has a few wild brooks, browns, and rainbows as well. Parts of the river are orange with yellowboy and the abundance of trout varies from location to location, but the fish are there, and some large ones at that.

Been wanting to try that.....and now I must!
