Ed,

Again, thanks for the flies last year. They worked well and the ones I tied did also. Now, I know the offer to Andrew wasn't directed to me, but I'm jumping in. I have always had an aversion to real small flies, but would love to give the Tricos a shot.....especially with someone who knows what he's doing.

I have a very flexible schedule. Just need a nearby hotel room to make it that early. I've fished a number of times with George (Foxgap). We're actually fishing in California in September. Great guy. Would be great to coordinate a Trico outing with you guys.....Andrew included.....if he can stand fishing with one of our resident liberals.
