First and foremost, the dam is for flood control. Rafting / fishing are simply by products. The cold water pool is managed horribly though. I'm waiting for PFBC to follow through and start Raystown as a bottom released cold water fishery. I'm thinking it has the potential to match or surpass the Delaware for hatches and fish size. Come on gubment, get off your a\$\$ and lets get cracking. I want to fish it before I'm 70.
