Excellent work!

I can testify as to Fox's flies effectiveness - they just catch fish. Lots of fish.

It'd be great if you could do a deer hair comparadun tutorial (like a sz 16 BWO). You tie amazing comparaduns - stimmys too!

In the last pic, it looks like you used a Tiemco 101 hook - same hook as the 100, but ring eye (straight eye). I prefer these in under sz 20 dries for the better hook point access.

Sly as a fox, you are. 😊
