want to sell the other 2 ?

Not for sale. They are nice: 2-1/2" by 3-3/4" - one has clips (#60) and the other has the covered spring, or whatever you call it (#66), for dry flies.

My favorite is the large with the leaf so you have 4 sides. I don't have nearby so I don't know what number it is.

I always thought Perrine was the poor man's Wheatley fly box.
