Hey all,

Im planning a trip to a friends near Albrightsville next weekend and need some input on these streams (are they fishable, worth the time, cold enough to hold trout, etc.)

Carpstocus run

Mud/Wolf run

Dilldown creek

Swamp run

Laurel run

Other Hickory run streams

Not trying to burn spots, just need general "go/no go" info.

Were looking to stay close to route 534 if that helps. Thanks in advance!
