Try the Schuylkill in the vicinities of creek mouths in Berks Co.....Angelica Ck, Maiden Ck, Tulpehocken Ck. Also try the Blue Marsh Lake discharge/stilling basin. The lake itself is also good. Do not try Lake Ontelaunee; it has not been stocked for years. Another location on the Schuylkill is the 3/4 mi stretch below Black Rock Dam, which sits near Phoenixville and Montclare. Blue Marsh, Nockamixon, and Marsh Creek Lake are good, with Marsh Creek Lake probably being the best of the three, although Nockamixon is coming on strong.
