Hey everyone. Brand new to tying and I have a question about a whiting Herbert miner Pro grade saddle. What is Pro grade? I would imagine it is below bronze but I couldn't find much about it. Only the Olympic rating system. Is it worth getting? It is half price for \$27 only 2 left. It's claiming sizes 12-18 with a few bigger and smaller and that is perfect range for what I want to tie. It looks like it has a few colors in it to. Mostly a silvery gray color (dun?) but with some browns and even a little lighter stuff also(cream?) I really don't want to jump into buying capes yet and I make a lot of abortions so I don't want to waste expensive good quality stuff yet. But I also don't want to buy a complete piece of junk. Should I go with something else to start? I see Metz has a variety pack or I found a website that has whiting 100s that he will mix and match sizes and colors for \$22.50 with shipping. What would you do if you had to pick one? Thanks ahead.
