I live by the stream it is not a class A trout stream. It has carp and red eye bass along with the trout. There are a few small catfish. I'll let you in on two of my favorite honey holes. The first you drive down through the brother grim then you turn right and walk down the trail to the first bridge and fish under and around the bridge. My friend recently caught a twelve inch rainbow trout. The second spot is by the moon township water treatment plant. Walk down the trail to the rod and gun club there should be a locked bridge got the left there is a deep hole behind some rapids.
