I picked up the waspi deluxe kit when I started and its been great, decent selection of materials, and hooks. Worked really well for me, the vise isnt the greatest, but you will figuer it out I've had hooks 20- 2/0 in it and it worked.

Also I woild sugest picking up a whip finishing tool. I just hit one a few months back and after having it, I realized I sjould have had it a long time ago.
