I want it to be clear that I am not advocating/encouraging people to fish it right now.

I agree with Dave: If you go, use your best judgement.

I fished "the run" for 30 minutes and caught nothing. there was a gentleman above me at the confluence that was catching one right after another on nymphs. the little spring run coming out of the lake on the other hand...I had a lot of fun with those little (and some not so little) buggers. Even though there was no hatch I caught all on top or swinging wet Olives and one nice brownie on an Ausable Wulff #16. very fun but got old quickly plus there were some kids in the area and I wanted them to get a turn.

on a side note, to any dads or moms out there who might be looking for a place to take your kids or family picnicking/fishing this is the place. what a nice little area.
