Nice video. Videos are lengthy, but filled with a lot of information. Good job.

Thanks! I noticed you are from Del. River area; how has it been fishing? I plan on getting out there next Friday through Sunday; sulfurs still on?

TC

The River is real high right now, like all the rivers in the east. The water is spilling over the dam (Cannonville) and the WB is high for even floating and unwadeable. MS too high for even floating.

Check these sites for info:
