The Acadia area is a place everyone should visit in their lifetime. It's funny--all of my Maine fishing buddies want to be out here fishing for chrome, and everyone I've met here wants to go after big brookies and stripers in Maine. Grass is always greener lol.

I've had a blast here so far, and it's not even Fall yet! I can't wait to get out with the faithful two hander in a few short months.
