Welcome to the board. I like to use Blackbird brand shot available here:

<http://www.fishusa.com/Product/Blackbird-Split-Shot>

I get the dispenser with sizes BB-1 and BB-3.

- 1) I like the dispenser.
- 2) The shot is not shiny, so it doesn't spook fish.

You might also want some micro-shot to supplement as the blackbird stuff is pretty large.

Great running into you on the stream Thursday!

I also use "Blackbird" shot for the same reasons. However I include shot sizes 2 and 4 also and then supplement with several sizes of micro shot. I very seldom build weight into the fly and prefer to adjust the shot on my line to conditions
