Stake out a spot below some riffle water and be ready. Fishing the long flats is tough, because the fish get a good long look at your offering.

Amen and be ready to defend it! That stream is worse than any stream I have ever fished. I really think with the exception of Fish N Chips, I may only ever do weekdays there in the future. We had a guy come in on the other side of the stream and start fishing (about 6 feet up too so he was spooking fish a bit downstream that another of us was fishing for by just being up there and moving around) for the very same fish we were targeting. Then we had a bunch of runners about to take a swim in a pool where we and 2 other guys were fishing. I said something to them and they decided to go elsewhere but the knucklehead on the other side kept on fishing. I wanted to go over and throw him in! Next time, I'll just sit back and throw rocks in the pool. If he don't want me to fish then I think its only fair that he not fish!
