As cloudy and cool as it was most of yesterday and today, plus with a couple of showers, I would have to interpret that as quite marginal. But whatever. Better than the last few years without a doubt. Elsewhere in the state there is much colder water then here in SC.

On July 4 for the MD fish free day, Plan A was Big Hunting Creek simply because I enjoy the stream so much but rarely fish it. Smack dab in the middle of the C & R section at 5:30 AM, the temp was 69F.

I went with Plan B.
