Welcome to the PAFF forum, Kyle. A great place to hang out when your not out there fishing!

The water is warming up and the bass fishing is really getting into gear. I didn't manage to catch any big fish yet this season but the action has been very good. Here are a couple that I caught recently. Everything so far has been taken underneath - no topwater action yet. I'm sure once the water clears up a bit the topwater game will be on! Bass fishing with a flyrod is just a whole lot of fun.
